Name of the Course: INTRODUCTORY MICROECONOMICS-SEM-1
ECO-G-CC-1-1-TH-TU/ECO-GE-1-1-TH-TU/ECO-G-EG-1-1-TH-TU
B.A/B.Sc

Course Articulation Matrix (CO with PO & PSO mapping)

After undergoing the course, the students would be able-

(a) Understand the basic principles and concepts of microeconomics.
(b) Analyse different market structures.
(c) Apply microeconomics principles to real-world issues and policy debates.
(d) Develop critical thinking and analytical skills through problem-solving and case studies.

CO	Programme Outcome (PO)

CO	2	2	2	1	1	0	1	1	1	1	1	2

Name of the Course: Issues in Economic Development and India
Sem-3
ECO-G-CC-3-3-TH-TU/ ECO--GE-3-3-TH-TU
B.A/B.Sc

<mark>Course Articulation Matrix (CO with PO & PSO mapping)</mark>

After undergoing the course, the students would be able-

(a) Recall the historical context of India's economic development, including pre- and post-independence economic policies and reforms.
(b) Explain key concepts and theories in development economics.
(c) Develop the ability to analyse and interpret economic data related to development indicators.
(d) Apply development economics theories and models to real-world issues.

Course Outcome	Programme Outcome											
	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1:	2	1	2	1	1	0	1	1	1	1	1	2

Name of the Course: Indian Economic Policies
Sem-4
ECO-G-CC-4-4-TH-TU/ ECO--GE-4-4-TH-TU ECO-G-CC-4-4-TH
B.A/B.Sc

Course Articulation Matrix (CO with PO & PSO mapping)

After undergoing the course, the students would be able-

(a) Describe the frameworks and institutions involved in the formulation and implementation of economic policies in India
(b) Explain the historical evolution of India's economic policies from independence to the present.
(c) Demonstrate the ability to critically analyse the impact of various economic policies.
(d) Analyze economic indicators to evaluate the effectiveness of policies
(e) Compare and contrast India's economic policies with those of other countries to understand different approaches and outcomes.
(f) Apply theoretical knowledge to assess real-world economic policies and their implications

Course Outcome	Programme Outcome											
	PO 1:	PO 2:	PO 3:	PO 4. /	PO 5:	PO 6:	PO 7::	PO 8:	PO 9:	PO 10:	PO 11	PO 12:

Name of the Course: Microconomics I & Indian Economy (50+50)
GE 4.1 Chg

After undergoing the course, the students would be able-

CO1: Define the concepts of microeconomics and issues in Indian economy.
CO 2: Apply microeconomics concepts and theories to real world issues.
CO 3: Analyse and understand the behaviour of firms under imperfect competition.
CO 4: Analyse the basic feature of the Indian economy.
CO 5: CO5 Critically evaluate public policies

	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12

Name of the Course: Macroeconomics and Advanced Business Mathematics (50+50)

DSE 5.1 A

<mark>Course Articulation Matrix (CO with PO & PSO mapping)</mark>

After undergoing the course, the students would be able-

CO1: Describe the fundamental concepts of macroeconomics and mathematical functions
CO 2: Apply macroeconomic theories and mathematical tools to analyse the real world business problems and economic conditions.
CO 3: Analyse the macroeconomic policies and how equilibrium is achieved in the economy
